

AXON 55 AND 55-S WINCH

Meet the most revolutionary, reliable, and powerful powersports winch ever

Both the AXON™ 55 and AXON 55-S are game-changers. Starting with the revolutionary Motactor™, which combines a motor and contactor into one unit for extreme performance and efficiency. Plus, it takes drastically fewer steps for installation. Add to it a massive all new 5,500 lb. pulling capacity, digital controls with operator feedback, all-metal IP68 waterproof construction, plus an all-new clutch control dial based on years of WARN 4WD hublock knowhow, and you've got a recipe for the most powerful, technologically advanced and durable powersports winch ever.

- AXON 55 includes 50' of durable ¼" steel rope, roller fairlead, and a black hook
- AXON 55-S comes with 50' of lightweight, easy-to-handle ¼" Spydura synthetic rope, an Epic hawse fairlead, and a black hook
- Massive 5,500 lb. capacity for the biggest UTVs and biggest pulls
- Revolutionary Motactor™ combines motor and contactor for easy installation, best performance
- IP68 waterproofing keeps water and the elements out
- Digital control offers never-before-seen levels of reliability and user feedback, including providing load and temperature info
- Satin black powder-coated finish and stainless steel fasteners for corrosion resistance
- Durable all-metal construction and one-piece tie plate (vs. tie bars) for increased structural rigidity
- New clutch design based on legendary WARN 4WD hub lock know-how
- Load-holding brake for great control
- Smooth and reliable all-metal three-stage planetary gear train
- Rockerbar digital control switch and digital wired remote
- Limited lifetime warranty (mechanical), 3 year warranty (electrical)
